ecoCULTURE
COATINGS
For Cultivation, Processing, and Packaging

ecoFINISH® High Performance Coatings has led the world as the first and fastest-growing manufacturer of flame sprayed polymer coatings for industrial and pool use.

Looking to provide a solution for problems often found with traditional pool finishes, we developed polymer powders to be used for flame spray industries using our patented process for installing our coatings on concrete and fiberglass. This was the beginning of our aquaBRIGHT™ and polyFIBRO® swimming pool coatings. aquaBRIGHT™ and polyFIBRO® were made to withstand the abuse of underwater conditions, and we found this innovative application could be adapted to steel, aluminum, and multiple additional substrates.

As many of our powders are certified and comply with NSF/ANSI 61 Drinking Water System Components, this has allowed us to expand our coatings to zoos, aquariums, and fish farms industries with our aquaticLIFE™ and ecoCULTURE™ product lines, with our ecoDUSTRIAL™ coatings focusing on corrosion control of concrete and steel.

Now we are excited to introduce our sister company, Optus Resin Technology, which manufactures liquid resin systems based on epoxy, polyurethane, and polyurea products for industrial, marine, architectural, engineering and transport markets. Optus Resin Technology carries a robust line of the garage floor, anti-skid, decorative landscape, and warehouse coatings.

With over 250 installers in 60 countries, ecoFINISH® continues to expand around the world, including the United States, Canada, the United Kingdom, France, Portugal, Belgium, Italy, Iceland, Poland, the Netherlands, Bosnia, Morocco, Greece, Australia, Germany, New Zealand, Ukraine, Thailand, Bonaire, US Virgin Islands, Spain, and we continue to expand.

AQUATIC COATINGS

polyFIBRO®
high performance coatings for fiberglass pools

Commercial Coatings

aquaBRIGHT™, polyFIBRO®, and aquaticLIFE™ are pneumatically applied high performance coatings that captures the strength, durability, and maintenance ease of old school swimming pool finishes while maintaining the beauty and architectural range of aggregate finishes. aquaBRIGHT™, polyFIBRO®, and aquaticLIFE™ are eco-friendly, stain and crack resistant, and will outlast traditional paint and plaster finishes for years to come. Used for a commercial or a residential pool, both lines are excellent finishes for both new pools and renovations.

Our Commercial Coatings are perfect for any institutional or aquatic feature. Our Commercial Coatings are NSF/ANSI Certified and hold to the same high standard as aquaBRIGHT™, polyFIBRO®, and aquaticLIFE™.

STENCILS

ecoFX™ stencils offer a full line of pool and depth markers in a variety of sizes to improve pool and spa safety and can be used easily with any of our Aquatic Coatings. With ecoFX™, custom stencils can also be created so that you can easily incorporate your logos, custom designs, decorative borders, and more right on the surface of the substrate. Custom made stencils provide the ability to add personalization and uniqueness to any new pool or renovation.

Silicone Tapes

Silicone Tape 1" x 36yds
1" Silicone Tape is ideal for masking off tile trim on benches and steps.

5 Rolls	(item # HT-1x36-5)
40 Rolls	(item # HT-1x36-CA)

Silicone Tape 2" x 36yds
2" Silicone Tape is best used for securing ecoFINISH's reusable fabric to a swimming pool's perimeter tile.

5 Rolls	(item # HT-2x36-5)
20 Rolls	(item # HT-2x36-CA)

Silicone Fabric

Silicone Tape 4" x 36yds
4" Silicone Tape is best used for securing ecoFINISH's reusable fabric to a swimming pool's perimeter tile.

1 Roll	(item # HT-4x36)
8 Rolls	(item # HT-4x36-CA)

Silicone Fabric
Silicone Fabrics are used in conjunction with the silicone tape to mask larger areas to protect prior to the thermal spray application.

1 Roll	(item # FAB-9x20)
4 Rolls	(item # FAB-9x20-CA)

EPOXY PRIMER

X40 PRIMER

X40 Primer is a two component, solvent free, low odor moisture tolerant epoxy primer. Once cured, it creates a new surface damp proof primer enabling early access onto the substrates for coatings, screeds, and self levelers. With its excellent adhesion properties and back pressure results, it can also be applied in wet conditions and, in extreme measures, underwater.

1 Kit	(item # X40)
3 Kit	(item # X40-3)
5 Kit	(item # X40-5)
100 Kit	(item # X40-Pallet)

Due to packaging requirements, Pack A is divided into smaller packs. The mixing ratio for the epoxy is (2) Pack A's per (1) Pack B.

Cool Weather X40C Primer

Designed to be used with concrete and other similar finishes, this epoxy primer is a two-component, solvent free epoxy primer resin designed specifically for applications as low as 40°F for use during cooler weather.

Cool weather epoxy primer can be used as a Rapid-Set primer in warm weather. For further information on this product, please contact your trainer.

1 Kit	(item # X40C)
3 Kit	(item # X40C-3)
5 Kit	(item # X40C-5)
100 Kit	(item # X40C-Pallet)

Due to packaging requirements, Pack A is divided into smaller packs. The mixing ratio for the epoxy is (2) Pack A's per (1) Pack B.

Rapid Set Primer X40C Minis

This kit contains 3 Kits of Rapid Set X40C Bond Coat, 0.75kg ea.

3 Kit Rapid Set Primer X40C Minis	(item # X40C-Mini-3Pack)

X40-200 High Build Epoxy -Trowel Grade

X40-200 HBT is a high solids, two component, low odour and solvent free elastomeric urethane epoxy.

It combines the durability of epoxies with the flexibility of a polyurethane. It is designed to be used as a flexible, crack bridging membrane, or joint filler where substrate movement is evident or is anticipated or maybe subject to vibration. X40-200 HBT is also used as waterproofing membrane and coating exhibiting good resistance to acids, alkalis', and most solvents.

1 Kit	(item # X40-200-HBT)
2 Kit	(item # X40-200-HBT2)
4 Kit	(item # X40-200-HBT4)

X40-200 Fiberglass Mesh

12.5"x 150' Mesh	(item # MESH-12.5x150)
48"x 150' Mesh	(item # MESH-48x150)

X40 Additive Pack Flood Coat

120g of X40 Additive Pack Flood Coat

X40 Additive Pack Flood Coat	(item # X40-FC-5Pak)

PRIMER ACCESSORIES

5 Gallon Polypro Epoxy Mixer

This solid core, galvanized steel polypro mixer allows epoxy to be mixed smoothly, minimizing air pockets. Can be used in a 5-gallon container with any electric drill.

5 Gallon Polypro Epoxy Mixer	(item # ESM-5GAL)

Spiked Shoes

The spiked shoes allow you to walk on wet epoxy without damaging the coating. Can be worn with work boots or sneakers. Spiked shoe snaps on.

Shipped From USA

Medium	Size 9 and under	(item # SPK-MD)
Large	Size 9 – 11	(item # SPK-LG)
X-Large	Size 11 +	(item # SPK-XL)

Red Pigment for X40/X40C Epoxy Primer
Pigment Packs for use with 100% mixtures of X40 and X40C epoxy primer.

DO NOT USE WITH 50/50 MIXTURE.

(1) 1 lb tub with scoop	(item # X40-PP-BULK)

100 Fiberglass Mat Wall Anchors

Fiberglass Mat Wall Anchors	(item # FM Anchors)

Silicone Return Plug
1" to 2" Silicone Reusable Expansion Return Plugs

3 Pack of 1"-2" Plugs	(item # SRP-2 3PAK)

Large Silicone Return Plug
1³/₄ x 2³/₄ Large Silicone Reusable Expansion Return Plugs

2 Packs of 1.75" x 2.75" Plugs	(item # SRP-3 2PAK)

Silicone Aerosol Spray
(to be used with the slicone plugs)
- Heavy duty silicone (release agent)
- Colorless, odorless, non-staining, non-corrosive
- Helps avoid over spray build-up

10wt oz (283g) Silicone Aerosol	(item # Silicone Spray)

INSTALLATION PREPARATION

Plaster White 'n Brite Features:
Corrosion inhibitor for added protection
Thickens the acid for a more thorough cleaning
Helps acid adhere to the floor, walls and steps
Bio-degradable formula
Removes metal stains and calcium deposits with ease

BIO-DEX PLASTER WHITE 'N BRITE
White 'n Brite is a acid washing additive that thickens your acid solution to allow it to stick to the pool floor, walls, steps and other obstacles for a more thorough cleaning. The formula will help the acid remove copper and other metal stains, calcium deposits, dirt, grease oil and other stains from your pool surface.

White 'n Brite also helps eliminate acid fumes, has a corrosion inhibitor and also helps to prevent etching of the pool plaster while treating your pool with an acid wash.

(1) 32 oz bottles	(item # BioDex-1 Quart)
(12) 32 oz bottles	(item # BioDex-CA)

IBIX: Vortex Applicator Unit (Black)
The Pool Coater the Pros use...
The High Output Vortex System allows installers to apply the finishes at a faster pace. A typical crew can easily install at a high output rate of 300-400 square feet per hour. A standard average size pool can be coated within a day.
(Training not included.)

| IBIX: Vortex Gun (Black) | (item # IBIX-BLK) |

IBIX: High Tech Applicator Unit (Green)
Newly offered in 2021.
Please see your representative for details.
(Training not included.)

| IBIX: High Tech Applicator Gun (Green) | (item # IBIX-GRN) |

Proton Pack (backpack gun)
The ecoFINISH® Proton Pack is an easy to carry, lightweight option when it comes to completing your coating for small projects in awkward or out of reach areas. The Proton Pack is perfect for mobile applications where larger equipment has little to no accessibility and is suitable to be used with all aquaBRIGHT™, polyFIBRO®, and ecoDUSTRIAL™ coatings.
(Training not included.)

| Proton Pack | (item # IBIX-PROTON PACK) |

INSTALLATION EQUIPMENT

Pro Dryer nm
- Up to 99% removal of bulk water
- Unique inner fin design: Ensures excellent liquid removal even at low flow velocities
- Inner shield design: Prevents re-entry of separated water
- Tested in accordance with ISO 12500-4
- Particle removal: Down to 1 micron
- Maximum oil content: ISO class 2
- Max oil carry over at 68°F: 0.1 ppm
- 1 year average life span of filter element
- Exceeds the ISO 8573-1 standards for compressed air purity

(Training not included.)

Pro Dryer nm	(item # Pro Dryer nm)

Turnkey Kit

1. (2) 100' Propane Lines
2. (1) Propane Coupler
3. (4) 50' Air Hoses with Universal Connectors
4. (1) USB Torch Lighter

5. (1) Oil/Water Separator
6. (1) Propane Torch
7. (1) Squirrel Mixer
8. (1) Pair of Spiked Shoes

Turnkey Kit	(item # Turnkey Kit)

ecoDUSTRIAL™ Hobby Gun

This Hobby Gun is created for the use of all of the ecoDUSTRIAL powders for small field installations Small propane tank required for use.

| ecoDUSTRIAL™ Hobby Coater | (item # IBIX-HOBBY) |

Detail Gun for Vortex/Standard Gun

This detailed concentrated spray pattern allows for the easy install of stencils, freehanded detailing, and irregular areas.

| Detail Gun for Pro/Standard Unit | (item # IBIX-DETAIL) |

Standard Gun for Vortex Applicator Gun

(Down-Grade Kit) Allows you to run the Vortex Applicator (Black Unit) as a Standard Unit with the smaller spray pattern and less heat.

| Standard Gun for Pro Unit (Down-Grade Kit) | (item # IBIX-BLK-140) |

Pro Gun

PREFERRED SEQUESTERING AGENTS

Startup-Tec® PK 3-Day Startup Treatment
Treatment for the prevention of plaster dust, staining and mottling. To be added when pool is being filled to prevent staining and mottling.

| (8) 64 oz bottles | (item # Startup-CA-64oz) |

Beautec® Superior Scale-Stain Controller
Superior scale and stain controller, and continuous pool surface, tile and equipment cleaner. Non-acid, non-phosphate multi-sequestrant controls all minerals. To be added to the pool monthly to help prevent scaling and staining.

| (8) 64 oz bottles | (item # Beautec-CA-64oz) |

Scaletec Plus® Surface Descaler Stain Remover Treatment
Superior scale and stain controller, and continuous pool surface, tile and equipment cleaner. Non-acid, non-phosphate multi-sequestrant controls all minerals. To be added to the pool monthly to help prevent scaling and staining.

| (8) 64 oz bottles | (item # Scaletec-CA-64oz) |

The ecoFINISH® Shade Shelter™ is a versatile, quick deployment, and easy setup tent made to protect aquaBRIGHT™ and polyFIBRO® applicators from the adverse spray conditions of wind and the heat from the sun. It's stackable 25' x 10' and 25' x 20' sections with quick coupler design allows for easy custom configurations to meet the needs of each specific site (20' wide swimming pools max). The mesh roof allows for maximum ventilation while minimizing the sun's rays and gusts from the wind. The 20" tarpaulin water ballast drain as easy as they fill and come with a mesh bag to help deter mildew.

![shade SHELTER™ — protection from the sun and wind]
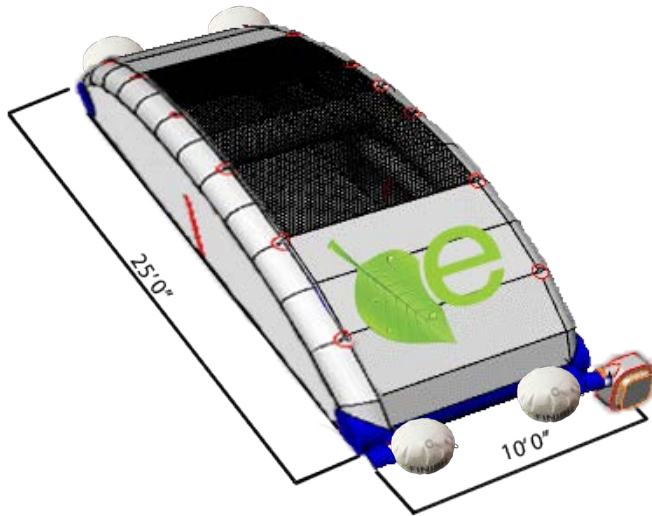

25' x 10' Dome Tent

The smallest (10') ecoFINISH® Shade Shelter™ is very versatile and has the capability to be used independently for covering up sections of the pool while spraying. Don't be fooled by it's small size. This Dome Tent has the ability to be used to cover small pools or sections of larger pools.

25' x 10' Dome Tent

(1) Dome Tent	(item # SS-DT-25106)
(1) 950W Blower	(item # SS-BL-US-950)
(1) 4 Kit Water Ballast	(item # SS-WB-4)

(Air Blowers and Water Ballasts are SOLD SEPARATELY)

The largest (20') ecoFINISH® Shade Shelter™ will do everything his little brother does and more. This Dome Tent will just about cover a small pool entirely. This particular tent is best used if you are continuously working on larger pools.

25' x 20' Dome Tent

(1) Dome Tent	(item # SS-DT-25206)
(1) 1500W Blower	(item # SS-BL-US-1500)
(1) 6 Kit Water Ballast	(item # SS-WB-6)

(Air Blowers and Water Ballasts are SOLD SEPARATELY)

25' x 20' Dome Tent

DOME TENT COMBOS

shade SHELTER™
protection from the sun and wind

Yes, ladies and gentlemen, the Shade Shelter™ Dome Tents connect. We made sure to keep everything versatile for easier use. You will have the ability to cover most pools by using any combination of the large and small Dome Tents. Take a look below at some of the different combinations possible. Each individual Dome Tent has the ability to be used over small pools or sections of larger pools. It is also very lightweight, so there's no hassle when it comes to moving it from pool section to pool section.
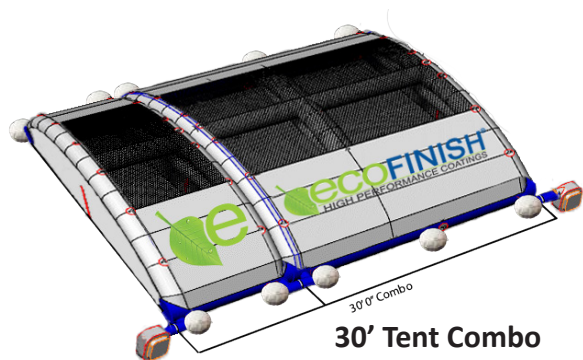

30' Tent Combo

(Air Blowers and Water Ballasts are SOLD SEPARATELY)
50' Tent Combo

50' Dome Tent Combo

(1) 25' x 10' Dome Tent	(item # SS-DT-25106)
(2) 25' x 20' Dome Tent	(item # SS-DT-25206)
(2) 1500W Blower	(item # SS-BL-US-1500)
(1) 4 Kit Water Ballast	(item # SS-WB-4)
(2) 6 Kit Water Ballast	(item # SS-WB-6)

Suggested Water Ballast: (1)6 Kit & (1)4 Kit

(Air Blowers and Water Ballasts are SOLD SEPARATELY)

Water Ballast

The Water Ballasts are designed to weigh down the Dome Tents for stability. The Water Ballast come in handy especially on those windy days. We strongly suggesst using these to anchor your Dome Tent and protect it from lifting caused by strong wind gusts.

Water Ballast

4 Kit Water Ballast	(item # SS-WB-4)
6 Kit Water Ballast	(item # SS-WB-6)

UL Certified Blower

The UL Certified Blower is designed to inflate and stabalize the Dome Tents. The 950W Blower is suggested for the 10' Dome Tent. The 1500W Blower is suggested for the 20' Dome Tent and any Dome Tent Combo.

(The number of blowers needed depends on the amount of Dome Tents desired for use).

UL Certified Blowers

American Fittings

950W Blower	(item # SS-BL-US-950)
1500W Blower	(item # SS-BL-US-1500)

European Fittings

950W Blower	(item # SS-BL-EU-950)
1500W Blower	(item # SS-BL-EU-1500)

Non-Skid Coating

Traditional Coating

ecoFINISH® ecoDUSTRIAL™ Coatings are different than all other paints and finishes currently in use for construction and industrial applications. ecoDUSTRIAL™ Coatings are thermoplastic polymer powder coating finishes applied utilizing our thermal flame spray application process. The installation process is completely portable, so the finish can be applied at any location and on virtually any surface to create a beautiful protective barrier that will last for many years.

ecoDUSTRIAL™ Coatings are non-porous, pH neutral, and will stand up to harsh weather and UV exposure. These extremely durable finishes are resistant to chipping, peeling, chalking, and cracking, and they retain some of its flexibility even at low temperatures. ecoDUSTRIAL™ finishes cure in seconds, not days or weeks, as with other industrial coatings. The finish is suitable for wet or dry locations, and can be applied on concrete, fiberglass, and metal surfaces at installation speeds up to 800 square feet per hour.

ecoDUSTRIAL™ with BioCote®

Food Processing Plant

Chemical Lab

We now offer our ecoDUSTRIAL™ Coatings with BioCote®. This antimicrobial additive can resist and help prevent the growth of microbes including bacteria and mold. With the BioCote® antimicrobial added to ecoDUSTRIAL™ Coatings, microbial colonization is minimized, making the devices easier to keep hygienically clean, reducing unpleasant odors, and the risk of infection caused by cross-contamination.

With the antimicrobial added, ecoDUSTRIAL™ is an ideal coating for food processing plants, chemical labs, schools, water treatment plants, and more.

PolyTECT™
BREATHABLE • LONG LASTING • PROTECTION

Why PolyTECT™?

PolyTECT™ protective impregnating fluro-polymer, which is invisible to the naked eye. The treatment sits within the pavement interstices, protecting the paving substrate from staining and contamination. Contaminants remain on the surface and are easily removed by normal cleaning methods.

| 5 Gallon drum of PolyTECT™ | (item # PT-100-5) |

Limestone

Benefits:

- PolyTECT™ is a breathable finish that will not alter the appearance of a treated surface or change its color.
- Perfect for high traffic areas.
- One surfaces such as stone, travertine, wood, limestone, pavement and more.
- Help reduce further on-going maintenance and costs on a protected surface.
- Suitable for ground surfaces with high levels of foot traffic.
- Easy to apply on any surfaces and you can use the surface within 1 hour of application.
- Surface protection helps reduce further on-going maintenance.
- UV resistant, non-flammable, nontoxic and environmentally friendly.

*PolyTECT™ has a 15-year life expectancy when the product is applied by the approved method

Travertine

Features:

- Repels water, grease, alcohol, oil and inhibits airborne dirt and stains
- Prevents the adhesion of chewing gum and staining from food and beverages
- Resists graffiti
- Reduces Efflorescence
- Inhibits moss and algae growth
- Reduces tire marks
- Can be used on Vertical and Horizontal Surfaces for Interior and Exterior and improves the thermal insulation value of a treated surface*
- Reduces surface degradation from atmospheric contaminates and "freeze/thaw" cycles
- Contains Zero Volatile Organic Compound (V.O.C.)

*Independent tests prove that a vertical surface treated with PolyTECT™ improves thermal insulation value by 16%.

Concrete

Application:

*Always test apply on a small hidden portion of the substrate before applying.

Any cracks in substrate must be repaired using a concrete/mortar repair system.
Moisture content should be equal or less than 12% to a depth of 1cm.
Substrate needs to be clean; free from dust, dirt, oil, efflorescence, organic growth and old paint films.
Remove any residual of spores, molds or organic growth in general. In case of dirt or old paint residues, wash the substrate at a maximum pressure of 2,175.57 psi. If any residues or unwanted patinas persist, a preliminary surface cleaning is recommended, using sorghum brushes or micro-aero-abrasion technology.
May be applied using low pressure spray, brush or roller. Ensure application is from bottom to top on vertical surfaces, taking care not to let the production run. Any subsequent applications must be applied until saturation.

Wood

Notes:

- PolyTECT™: Cannot be re-applied after curing as there will be a loss of adhesion.
- PolyTECT™: Is unable to work if applied over non-absorbent surfaces.
- In presence of saline efflorescence, the surface must be treated with an IBIX salt extractor DESAL before the application of PolyTECT™.
- Do not apply PolyTECT™ if rain is expected within 4 hours.

Natural Stone

Coverage:

- Architectural Concrete: 184 Ft²/Gal (4-6 m²/Ltr)
- Block Paving: 285 Ft²/Gal (5-8 m²/Ltr)
- Porous-Natural Stone (Limestone, Sandstone): 82 Ft²/Gal (2-5 m²/Ltr)
- Low Porosity Stone (Granite, Marble, Slate, Terracotta): 652 Ft²/Gal (8-16 m²/Ltr)
- The coverage may vary according to the porosity of the stone.

TERMS & CONDITIONS

RETURNS

Only products in unopened and undamaged packaging suitable for resale will be accepted for returns. All returns are subject to a 20% re-stock charge. An RMA number MUST be obtained from ecoFINISH before goods may be returned. Please contact Mike Monti @ 800-333-1443 to obtain an RMA number. Freight on ALL returns must be prepaid. A tracking number is required as proof of delivery. C.O.D. shipments will be refused. All approved returns will be refunded in the form of an account credit.

ORDERING/SHIPPING POLICY

*Orders must be confirmed by the customer prior to payment and shipment processing. After the order is received, a sales order quote will be emailed to you. If no changes are needed to the quote, please reply "Approved" to that email and we will begin processing your order. **The order will not be shipped until we have received your confirmation.***

Any purchase orders received **before** 12:00pm will be processed and shipped within one business day.

Any purchase orders received **after** 12:00pm will be processed and shipped within two business days.

Custom color powder orders will have a 6-8 week turnover time. This time includes the process of receiving your swatch that you want to match, getting your approval on our sample, and the processing time.

Custom stencils have a two week lead time.

Disclaimer

The above mentioned lead times are based on current stock and subject to change depending on product availability. Dealer/Distributor shall be notified within one business day if the product ordered will not ship according to above guidelines. Orders placed on weekends and holidays will not be received until the next business day and processed as orders received before 12:00pm. Large orders may require additional lead time.

RETURNED CHECKS

A NSF check will automatically place an account on C.O.D., certified funds status. Customer will be required to replace the bad check with certified funds and will be assessed a $25.00 NSF check charge.

COLLECTION ACCOUNTS

Accounts 90 days or NSF check accounts who have failed to make arrangements with the credit manager for payment of balances due will be referred to a collection agency or attorney in the area for implementation of any and all legal means available to effect repayment of the debt.

FREIGHT POLICY

All shipments are F.O.B. Warminster, PA.

All merchandise shipped by Common Carrier at Buyer's risk. Seller's responsibility ceases with receipt of bill of lading from Common Carrier. Seller will insure goods for full amount unless Buyer submits written request to Seller. SHIPMENT DAMAGE OR SHORTAGE CLAIMS MUST BE MADE WITH DELIVERING CARRIER IMMEDIATELY. Buyer must pay for replacement goods plus shipping for material damaged in transit before replacement goods can be shipped.

SHIPMENT VARIANCES

You have 48 hours to contact Customer Service on any missing or incorrect product. No exception!

All of our merchandise goes through rigorous quality control inspections. In the event that a product is found to be defective, you must contact ecoFINISH® to obtain an RMA (Return Merchandise Authorization) number. DO NOT ship item(s) to be replaced or credited without an RMA number or your return will not be processed. Please contact Mike Monti @ 800-333-1443 to obtain an RMA number. Customer Service will need a fax number or e-mail address in order to provide the appropriate RMA documentation for all returns.

Terms and Conditions: Subject to change without notice.

10 Year Limited Residential Product Warranty

I. ecoFINISH® LLC ("EF") of Warminster, Pennsylvania, is the manufacturer of aquaBRIGHT™ & polyFIBRO® ("Products") which are only sold by EF to independent dealer contractors ("Dealer"). At the sole option of the retail Dealer, EF offers this 10 Year Limited Residential Product Warranty to the Dealer's Residential customer. This Limited Product Warranty only covers defects in the manufactured material of the Products during the applicable Warranty Period (as defined below) (the "Limited Warranty"). This Limited Warranty starts on the date of your purchase and lasts for 10 years (the "Warranty Period"). The Warranty Period is not extended if we repair or replace the Product. EF may change the availability of this Limited Warranty at our discretion, but any changes will not be retroactive. EF extends this Limited Warranty only to the customer who originally purchased the Products ("You"). It does not extend to any subsequent owner or other transferee of the Products.

II. This Limited Warranty includes the following:
    A. Chemical Resistant- The Products will not significantly deteriorate due to exposure to appropriate swimming pool chemistry conditions.
    B. Chalk Resistant- Product colors will not chalk.
    C. The Products will obstruct growth of mildew on the surface of the sealer film. Resists organic stains. (stain resistant does not mean stain proof)
    D. Spall Resistant- The Product chemically bonds to the surface and is resistant to spalling or delamination.

III. This Limited Warranty does not cover, among other exclusions: any defect to the Products due to the negligence of the customer, Dealer, installers, and/or other persons; defects in the installation or faulty installation; failure to maintain the Products properly; unreasonable use or abuse; alterations to the Products; unsatisfactory material choices by You or the installer; accidental damage; element damage such as water or rain; over-heating; freeze/thaw; vandalism; acts of God or causes other than defects in the materials of the Products. Examples of "defects in installation" or "faulty installation" by Dealer, installers, contractors, or any other person involved in the installation process may include the following: improper prepping of the surface, failure to clean the surface pursuant to the Installation Manual's instructions as needed at the time of installation, defective substrates, wall structures that are not built to code - and are not constructed pursuant to all applicable local building or governing agencies, or previous coatings which have lost adhesion and were not properly removed prior to the Product install. This Limited Warranty does not cover deterioration, scratches, any abuse to the finish or wear of the Products that was caused by You post-installation, by moving or dragging equipment, fittings, furniture, or any other physical item over the finished surface. EF is not responsible for the actions and omissions, including negligence, of the installer. Installation workmanship, materials and subsequent materials used in the installation are not covered under this Limited Warranty.

IV. This Limited Warranty will apply only if the claim is for defective material and such claim is submitted to EF online at ecofinishcoatings.com/warrantyclaimform. EF will evaluate each claim and if it is covered claim, EF will, at its discretion, coordinate the repair or replacement of the defective material with the Dealer. Previously painted surfaces must have paint removed before applying the Products. All surfaces must be properly cleaned with aquaBRIGHT™ & polyFIBRO® approved methods. The Products must be applied in accordance with EF's Installation Manual's instructions.

Name of Customer: _____   Project Address: _____

Customer Telephone: _____   Date Project is Completed: _____

Name of Dealer: _____

Within 60 days of the Date Project is Competed Dealer must provide to EF this completed form including the purchase information associated with the specific customer project in Section IV above. Failure to do so by Dealer may cause the Limited Warranty to be void.

V. This Ten Year Limited Warranty shall be pro-rated as follows for replacement by EF of any Products with a proven manufacturer material defect:
Year One-Five: EF will replace the Product with a proven manufacturer's defect.
Year Six: EF will replace product valued at 90% of Dealer's prevailing product cost.
Year Seven: EF will replace product valued at 80% of Dealer's prevailing product cost.
Year Eight: EF will replace product valued at 70% of Dealer's prevailing product cost.
Year Nine: EF will replace product valued at 60% of Dealer's prevailing product cost.
Year Ten: EF will replace product valued at 50% of Dealer's prevailing product cost.

Dealer or its customer shall be responsible for the difference between the EF product allowance above, and the Dealer's retail product replacement costs. All approved warranty claim products will be shipped F.O.B. from EF's corporate office address at 415 Constance Drive, Warminster, PA 18974.

This Limited Warranty does not cover any costs related to the removal, replacement, installation, or labor expenses in connection with the replaced Products. No Dealer or anyone else has authorization to modify this Limited Warranty. All dealers of ecoFINISH® products are independently owned and operated, and all Product installations are the sole responsibility of each authorized Dealer. It is the sole responsibility of the Dealer's or customer to employ only competent installers in order that the Products are properly installed. EF will not be responsible for any form of special, indirect, accidental, lost profits or consequential damages caused thereby. All warranty claims submitted require proof of purchase. Failure to strictly comply with the conditions set forth in this Limited Warranty will make this Limited Warranty null and void.

VI. THIS WARRANTY SUPERCEDS ANY VERBAL OR WRITTEN AGREEMENTS. EF's HEREBY EXCLUDES ANY AND ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, AND THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE HEREOF. THIS FORM OF LIMITED WARRANTY IS ONLY AVAILAIBLE FOR PURCHASES OF PRODUCTS AFTER JANUARY 1, 2020.

NOTE: THIS LIMITED WARRANTY WILL APPLY ONLY IF THE FOLLOWING PROJECT INFORMATION, ALONG WITH THE DEALER'S CUSTOMER'S NAME, ADDRESS AND TELEPHONE NUMBER, ARE SUBMITTED TO EF BY THE INDEPENDENT DEALER AT THE TIME OF THE DEALER'S PROJECT.

CERTIFICATE OF LISTING

IAPMO Research and Testing, Inc. is a product certification body which tests and inspects samples taken from the supplier's stock or from the market or a combination of both to verify compliance to the requirements of applicable codes and standards. This activity is coupled with periodic surveillance of the supplier's factory and warehouses as well as the assessment of the supplier's Quality Assurance System. This listing is subject to the conditions set forth in the characteristics below and is not to be construed as any recommendation, assurance or guarantee by IAPMO Research and Testing, Inc. of the product acceptance by Authorities Having Jurisdiction.

This certificate is not evidence of current listing. To verify listing status, visit the IAPMO R&T Product Listing Directory at pld.iapmo.org

Effective Date: April 2019   **Void After:** April 2024

Product: Drinking Water System Components - Health Effects   **File No.** N-10519

Issued To: Ecofinish, LLC
415 Constance Drive
Warminster, PA 18974

Identification: Each product shall be permanently and legibly marked with the manufacturer's name or trademark. The product may also be marked with the standard designation "NSF/ANSI 61".

Characteristics: Materials or products that come into contact with drinking water and/or drinking water treatment chemicals. Products and materials may include process media, protective materials, joining and sealing materials, pipes and related products, mechanical devices used with treatment/transmission/distribution systems, and mechanical plumbing devices. To be installed in accordance with the manufacturer's instruction. Lead free requirements are addressed under a separate certificate of listing.

Products listed on this certificate have been tested by an IAPMO R&T recognized laboratory. This recognition has been granted based upon the laboratory's compliance to the applicable requirements of ISO/IEC 17025.

Products are in compliance with the following standard(s):
